Claudio Martín Torres

SYSTEMS ANALYST | SOFTWARE DEVELOPMENT & IT SUPPORT

mvrtingrzsk@gmail.com | linkedin.com/in/martint64 | github.com/mvrtin64 | mvrtin64.github.io/portfolio |

Mar del Plata, Argentina

PROFESSIONAL SUMMARY

Systems Analyst (2024) looking for my first role in IT, in **software development** or **technical support**. Full-stack development with **TypeScript, React / React Native, Node.js / NestJS and PostgreSQL**; my latest project, Gym Tracker, is a mobile app with its own API, tests and CI. Hands-on **first- and second-level IT support** since 2022: hardware, software, Windows 10/11, Linux and networking. English C1. Available immediately.

CORE COMPETENCIES

Full-stack development (TypeScript) | React & React Native | REST APIs (Node.js, NestJS) | PostgreSQL & MongoDB | Testing & CI | IT Support (L1/L2) | Windows 10/11 & Linux | LAN / Wi-Fi networking

WORK EXPERIENCE

Distribuidora Costa Atlántica (Mondelez)

Jul 2026 - Present

Field Merchandiser

Mar del Plata

- Restocking, stock control and management of an assigned route of stores, working autonomously.

Campo Verde

Dec 2025 - Jun 2026

Store Stock Clerk

Mar del Plata

- Stock, expiry-date and FIFO rotation control across the sales floor, storage and cold rooms.

Axion Energy

Jul 2025 - Dec 2025

Gas Station Attendant

Coronel Vidal

- Customer service, fuel dispensing and basic cash handling.

Isla de los Estados S.A. (Coop. América Ltda.)

Feb 2025 - Jul 2025

Automation Line Operator

Vivoratá

- Operation and monitoring of automated packaging and sorting systems, following quality and traceability standards.

Academic and independent practice

2022 - Present

IT Technical Support

Mar del Plata

- First- and second-level technical support for local businesses in Mar del Plata, individual users and academic practice.
- Diagnosis and resolution of hardware, software, connectivity and performance issues on PCs and laptops.
- Installation, configuration and maintenance of Windows 10/11 and Linux, drivers, applications, printers and peripherals.
- Configuration and troubleshooting of LAN and Wi-Fi networks, routers and switches.
- User, permission and access management (Active Directory); remote assistance with AnyDesk and TeamViewer.
- Logging and follow-up of incidents through a ticketing system, and documentation of frequent solutions.

PROJECTS

Gym Tracker Oct 2026 - Present

Strength training mobile app that handles progressive overload: after every session it tells you the weight and reps for next time. Level-based onboarding, per-set effort and joint-pain feedback with automatic plan adjustments, and a progress chart per exercise. Business rules live in a framework-free TypeScript domain package shared by the app and the API; unit tests (Vitest) and integration tests against PostgreSQL run in CI.

React Native (Expo), NestJS, Prisma, PostgreSQL, TypeScript, Docker Compose, GitHub Actions

Portfolio with an interactive terminal Oct 2026

Bilingual personal site with a Linux-style terminal (ls, cd, cat, tab completion, history) to browse its content; terminal logic written as tested pure functions and deployed automatically to GitHub Pages.

React 19, TypeScript, Vite, Vitest, GitHub Actions

Sushi ordering chatbot Dec 2024 - Jan 2025

Web app for ordering sushi through a Voiceflow chatbot that takes orders and answers FAQs, with fuzzy matching against the menu. REST API on MongoDB (Mongoose) for menu, orders, users, FAQs and business hours; tests with Jest and Supertest.

Voiceflow, React, Node.js, Express, MongoDB, Jest

Secure chat Oct - Nov 2024

Real-time web chat: passwords hashed with bcrypt, messages encrypted with crypto-js, SQLite persistence and user verification through a Telegram bot and SMS.

Node.js, Express, Socket.IO, SQLite, bcrypt, crypto-js

RPS War Sep - Oct 2024

Real-time multiplayer 2D web game built as a team. My contributions: the life-point and spawn-point systems, and the refactor to an MVC architecture.

Node.js, Socket.IO, JavaScript, MVC

EDUCATION

Systems Analyst (Analista de Sistemas) Instituto Superior de Formación Técnica N° 151 Apr 2022 - Dec 2024

Mar del Plata

GPA: 8.09/10 | Diploma: https://drive.google.com/file/d/1zsBvWE2Bwt4eCqi8Z-vuR8JuG8kokqVp/view

SKILLS

Development: TypeScript, JavaScript, React, React Native (Expo), Node.js, Express, NestJS, Prisma, REST APIs, Socket.IO

Databases: PostgreSQL, MongoDB, SQLite **Testing & DevOps:** Vitest, Jest, Git, GitHub Actions, Docker, VirtualBox

Support & systems: Windows 10/11, Linux, Active Directory, AnyDesk, TeamViewer, Jira, Microsoft 365, Google Workspace

Networking: TCP/IP, LAN, Wi-Fi, routers, switches; ping, ipconfig, tracert **Languages:** Spanish (native), English (C1)
